Papiernictvo DEMO s.r.o.	**as of 2026-09**
Verdict	**DOES NOT TIE**
Report contract	RELEASE REFUSED — verdict DOES NOT TIE
Figures for the board	NOT ISSUED — the checks do not tie, see the Checks sheet

What was not checked

- whether a posting is on the right account in substance — the checks verify the reconciliation of sources and totals; the cost centre and month of invoices are matched to the invoice register
- VAT — the rates on receipts are not checked against the category; what is checked is revenue excl. VAT (604) and the total incl. VAT by day and payment method
- depreciation (551) — not checked without a fixed asset register; income tax (591) is an interim estimate of 21% of profit, not checked against the tax return (only the payment of the advance 341 from the bank is checked — except for the last month of the period, whose payment arrives after the period)
- authenticity of source documents — a fake receipt entered in the POS and in TOTAL, or a fictitious invoice from a supplier in the master data that is posted and paid, will pass: source ↔ source reconciliation by design cannot see a source falsified at the start
- goods category on the receipt — the POS is the only source; a shift of revenue between categories with the same VAT rate is not detected
- shortage and stock write-off — a stock issue without a sale recorded consistently in stock, journal and trial balance will pass
- tolerance of €0.05 a day in the reconciliation of revenue excl. VAT (VAT rounding on receipts) — at most ~€100 for the whole period
- bank account balance against the real bank — the statement is checked against itself and against the books
- payments of opening liabilities as at 2024-12-31 are matched only to balance sheet account 321 (the invoice register starts in 2025)
- plan values — shape only (a plan is an intention, not a fact)
- exceptions are switched off until management decides — every finding means DOES NOT TIE
- reference not applied to this delivery
- 1042 trial balance rows outside the P&L (classes other than 5/6, turnover €30,635,285.76) — they do not enter the P&L and were not checked

Control panel **Papiernictvo DEMO s.r.o.** **as of 2026-09** **Verdict: DOES NOT TIE**
